FYI: Judith Weis of Rutgers University has agreed to join the morning panel on CADs vs. off-site disposal. Her e-mail is:

jweis@andromeda.rutgers.edu

Jay, we had discussed directing the 1st two questions of the CAD session at two specific panel

members in order to give the audience some basic technical information on which to base their subsequent questions/discussions. We had discussed the 1st question being “What is a CAD” and directing it at Paul Schoeder; then the 2nd question would be “What might be the effects of a CAD on the Newark Bay environment?” and it would be directed at the NOAA expert.

Unfortunately, NOAA is unable to send anyone to the forum. So instead, Peter deFur has agreed to prepare a 10 min presentation on the environmental impacts of a CAD in Newark Bay.

There is still the possibility that we may get a couple more experts on the environmental impacts of a CAD in Newark Bay to serve on the panel. At NOAA’s recommendation, I have contacted Judy Weis of Rutgers and Frank Bohlen of U Conn. I will let you know if they agree to join the panel.

Also, note that I may have mis-identified Marc Helman in previous e-mails. He is not with USACE-NY – he is with the Port Authority of NY/NJ.

Panel members

CAD vs. off-site

Phil Spadaro, The Intelligence Group

Paul Schoeder, USACE-ERDC

Peter deFur , Environmental Stewardship Concepts

Richard Plumbech, Passaic River Coalition

Bill Potter, demaximis

Marc Helman, Port Authority of NY/NJ

Mustafa Altinakar, Univ of Mississippi

Navigation

Dr. James Opaluch, Univ of RI

Richard Plumbech, PRC

Robert Fixter, Clean Earth Inc

Sam Hahn/Rob Harms, George Harms Construction

Randy Hintz, USACE-NY

Steve Singer, Darling International

Mustafa Altinakar, Univ of MS

Bill Potter, demaximis

Damon Rich, City of Newark

Capt Joe Mastandrea, Town of Kearny

Hey do you happen to have a list of who has agreed to present at NJIT so far? Please pass it on if you do. Thanks, Janine
